

E-Safety at Sherbourne Fields School

At Sherbourne Fields we take E-Safety very seriously.

There are lots of ways of going on the internet, such as computers, iPad, mobile phones and games consoles.

It is important that we know how to stay safe online.

We discussed E-Safety at School Council, with Charlie telling us the importance of secure passwords and stranger danger.

We follow the SMART rules of internet safety.

- SAFE – keep personal information safe.
- MEETING – don't meet people you only meet online.
- ACCEPTING – don't open emails, files or texts from people you don't know.
- RELIABLE - check information on more than one website.
- TELL – tell a trusted adult if you feel unsafe then online
