

## Sherbourne Fields Early Years Assessment

The Early years children are baselined in October using 'Development Matters' and Sherbourne Fields Early Years level descriptors for Literacy. The additional descriptors for Literacy were set out to break down the steps on 'Development matters' to allow for the specific steps of progress appropriate for children with additional needs.

The children are set an end of year target of a least one developmental step but more where this is felt aspirational and achievable. In July the children's levels are captured and a percentage of the level they are working towards is recorded e.g. 56% 0-11 indicates they have achieved 56% of the 0-11 descriptors.
